17630 Davenport Rd Ste 108, Dallas, TX 75252

CHOOSE YOUR STYLE

01 #1 STYLE

A flat-top cap with a sloped skirt and a wraparound mesh screen. A clean, low-profile look that covers the whole chimney crown.

02 #2 STYLE

A hip-roof cap with raised standing seams over a full mesh screen. A traditional, architectural finish for brick and stone chimneys.

03 BOTTOM PAN WITH SPARK ARRESTOR

A chase cover pan topped with a round spark arrestor. The practical choice for sided, factory-built chimney chases.

04 T-TOP STYLE

An open-frame shroud with a flat top that sits over the chase and hides the termination while letting it vent freely.

SHROUDS

05 STEVENSON STYLE

A hip-top shroud on an open frame, covering a screened round termination. Clean lines with plenty of airflow.

06 FORTRESS STYLE

A low-profile hip shroud with a continuous mesh band. It sits close to the chimney for a sleek, solid silhouette.

07 ASPEN STYLE

A flared, bell-shaped decorative shroud with ribbed panels and a mesh band. A statement piece that finishes the roofline.
